

INSTRUCTIONS FOR HOOKUP APPLICATIONS

1. Complete the “permit to connect to sewerage system” form.

Certified check will not be required except for special situations where other public or private property will be disturbed.

Provide the contractors insurance certificate with the application.

2. Attach a sketch of the proposed building sewer and grinder pump layout, as shown on the example sketch included in this package.
3. For pressure sewer connections the sewer customer must complete & execute “covenants” for “pressure sewer sanitary drain & building sewer”.
4. For pressure sewer connections, the sewer customer must also complete and execute the “right of entry form” which grants to town access to the grinder pump to maintain & repair it.
5. When all the required information & forms are complete the Town of Hague will review the application and visit the property to verify that the proposed installation will be acceptable.
